ICE MACHINES ✕ POST MIX ✕ SUPPLIERS OF HIGH QUALITY ICE & COLD DRINK DISPENSING SYSTEMS ✕ FROZEN BEVERAGES ✕ BEER SYSTEMS

Ice Cooled Drop in with Bar Gun

(Single & Dual Gun)

Dimensions
W 610 D 430 H 720 with motor
Cut out of Bench top
W 570 D 395

- Low to medium volume
- Remove lids whilst trading with the Ice serving 2 purposes. It is the Ice that chills the Soda & Syrup lines that are incased in the base of this Ice Well. The second function is that the Ice with up to 20 kg of storage is also used for serving purposes.
- With no Refrigeration and motors that run 24/7 and better longevity and life costs, this concept will significantly reduce the running costs, maintenance, service and deliver more Gross Profit.
- 10 AMP Power only

ICDI Bargun Drop In

Lancer is recognized as the leading manufacturer of ice cooled beverage systems. The ICDI Bargun drop-in is designed using the highest quality materials and state-of-the-art technology providing our customers with consistent drink quality. Ice cooled chilling is an alternative to the traditional refrigerated ice bank chiller, where it uses ice as the cooling medium on a beverage cold plate.

ICDI BG1

- > Integrated Ice Cooled Dispensing Solution
